CROSS BORDER PAYMENTS REGULATION EU/924/2009

The E.U. regulation-924/2009 on cross border payments (and subsequent amendments) provides that all payments in Euro with option **SHA**, where both the ordering party's bank and the beneficiary's bank are located in a EU country, shall be charged as domestic payments.

In order that STP transfers may be automatically processed by financial institutions, the payment order MT103+/MT103 shall contain the beneficiary's IBAN code and the BIC code of the beneficiary's bank.

PAYMENT SERVICES DIRECTIVE*

The implementation of the Payment Services Directive (PSD), which provides the legal foundation for the creation of an EU-wide single market for payments, came into force in Italy effective March 1, 2010. The direct regulatory focus of the PSD mainly concerns the relationship between a Payment Service Provider and its customers. However, in cases where Banco BPM Group will act as an intermediary bank in delivering payments on to other banks for the beneficiary's account, a processing fee will be charged separately to the remitting bank in compliance with the no-deduct rule. In addition, please note that we will handle payment instructions received with the OUR option as per current arrangements. BEN charge code is not allowed for payments in scope of PSD.

* [Directive \(EU\) 2015/2366 of the European Parliament and of the Council of 25 November 2015 on payment services in the internal market, amending Directives 2002/65/EC, 2009/110/EC and 2013/36/EU and Regulation \(EU\) No 1093/2010, and repealing Directive 2007/64/EC](#)
